

Sanitary Funds

"I do hate to handle this dirty old currency," says Mrs. Smith over the fence to her neighbor, Mrs. Jones. "I am so afraid I will get hold of some contagion." "Yes," says Mrs. Jones, "I used to be so worried over it, but I have found a way to get around that source of worry. My husband gave me a bank account. He placed the money in the bank instead of giving me the cash and gave me a check book. Now whenever I need anything at the store I give a check for it. I find that it is very convenient and I don't run the risk of losing my money or having a pickpocket get it. I never carry any cash except some small silver for pin money." We extend a special invitation to the ladies to open up a checking account with us.

SOME PEOPLE ARE MISERABLE, SICK

tired, drag, don't feel like work half the time. They do not know what is the matter. There are just lots and lots of people who are sick, yet who manage to drag through their work day after day. In most cases the real cause of this state of poor health is the liver is dead, inactive, clogged and fails to perform its functions, therefore the whole system has to suffer. Townes' Liver Pills is a pill of unusual merit. It acts mildly on the liver—does not make you sick or gripe you in the least. The most delicate woman can take them—without the least bad effect. If you are miserable, half sick, tired and have that drag feeling, get a 25 cent bottle of Townes' Liver Pills from your nearest dealer or by mail from us.
